Work Experience

TSTPrep USA
AI Consultant 2024 – Present

- Design and develop LLM-powered solutions for teacher support, automating tasks, and improving educational outcomes.
- Implemented prompt engineering and evaluation frameworks to enable rapid iteration, resulting in a 20% reduction in LLM development time.

Unison Media New York, NY, USA
CTO 2021 – 2023

- Defined and implemented the technical vision and strategy for a New York-based media agency, overseeing the development and project management teams.
- Spearheaded the adoption of a Zoho intranet, SOPs, and training manuals to optimize staff efficiency, automate business processes, and streamline website development.
- Assisted the CEO and team with a successful migration to Zoho One.

Sea.earth Glasgow, UK
CTO & Technical Lead 2021 – 2022

- Led technical research and development for a blockchain-based environmental startup.
- Researched and delivered feasibility reports on utilizing smartphones for environmental data collection, resulting in a successful \$50,000 grant application.
- Designed an architecture for storing blockchain data in the InterPlanetary File System (IPFS) to enhance data security and accessibility.

Cekaso Hamburg, Germany
Project Manager 2019 – 2021

- Managed a team of 5+ developers to build custom POS software solutions for a leading European furniture purchasing group.
- Played a key role in UI/UX design and client-facing project management, ensuring on-time and within-budget product delivery.
- Resulted in a 15% reduction in order processing time through software optimization.

Side Projects

AI-Powered Teacher Support Platform

- Developed an LLM-based tool that automates administrative and instructional tasks, significantly enhancing teacher productivity.
- Recognized for its innovative approach to educational support, receiving positive feedback from educators and administrators.

Environmental Data Collection Using Blockchain

- Created a blockchain-based solution for secure environmental data collection, utilizing IPFS architecture for data storage.
- Gained traction within the environmental tech community for its potential to enhance data integrity and transparency.

Achievements

- › **LLM Development Optimization:** Achieved a 20% reduction in LLM development time through optimized prompt engineering strategies, showcasing my ability to drive continuous improvement in project management processes.
- › **Successful Grant Application:** Secured a \$50,000 grant for environmental data research at Sea.earth, demonstrating my skills in stakeholder engagement and effective communication in a cross-functional team environment.

Certifications

- › **DeepLearning.AI Certification:** Comprehensive course covering foundational deep learning concepts, including neural networks, CNNs, RNNs, and more.
- › **AWS Machine Learning Specialty:** Certification validating expertise in implementing, deploying, and maintaining machine learning solutions on AWS.
